

Territorial Highway

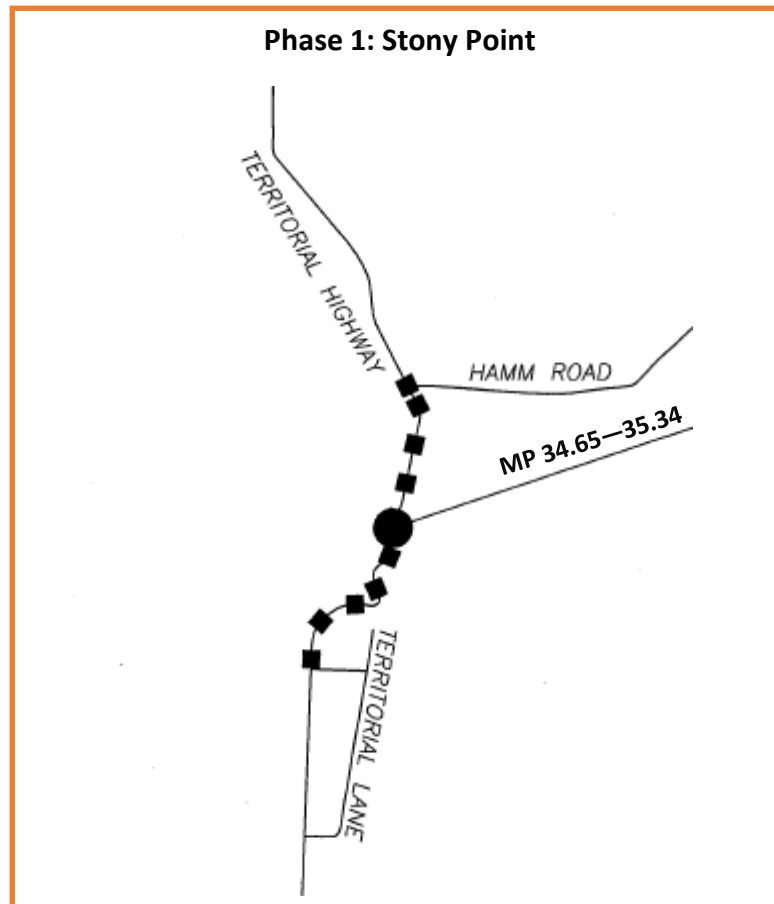

Gillespie Corners to Lorane

April 2021 Project Update: Stony Point Construction — *Restarting April 12th*

The work that began last summer on the Stony Point realignment and slide reconstruction (known as Phase 1 of the Territorial Highway project) will be completed this summer. Construction activities will begin on April 12, 2021. Safety of the traveling public and the construction crew is a high priority.

The public will be able to travel through the area, but flaggers may delay or hold traffic up to 20 minutes at a time throughout the summer. Additional information, including any changes to traffic control measures, will be announced as soon as new information becomes available. The public is encouraged to use alternate routes where possible and to travel safely.

Your patience with us and support of this project is greatly appreciated! We will continue to share project updates through our project e-newsletter. Please let us know if you have any questions or concerns. **Thank you!**
