

KNOW WHERE TO GO FOR CARE?

Urgent Care

For conditions that require immediate care but are not life-threatening.

- Allergies
- Asthma Attack
- Moderate burns
- Moderate cuts requiring stitches
- Urinary tract infection with fever or flank pain

Primary Care

For conditions that require preventative or ongoing care and are not life-threatening.

- Annual check-ups
- Cough or colds
- Fever
- Lingering pain
- If something causes you concern
- Regular health screenings
- Unexplained weight changes

Primary care is an option for most urgent care conditions, except asthma attacks and minor cuts requiring stitches

Emergency Care

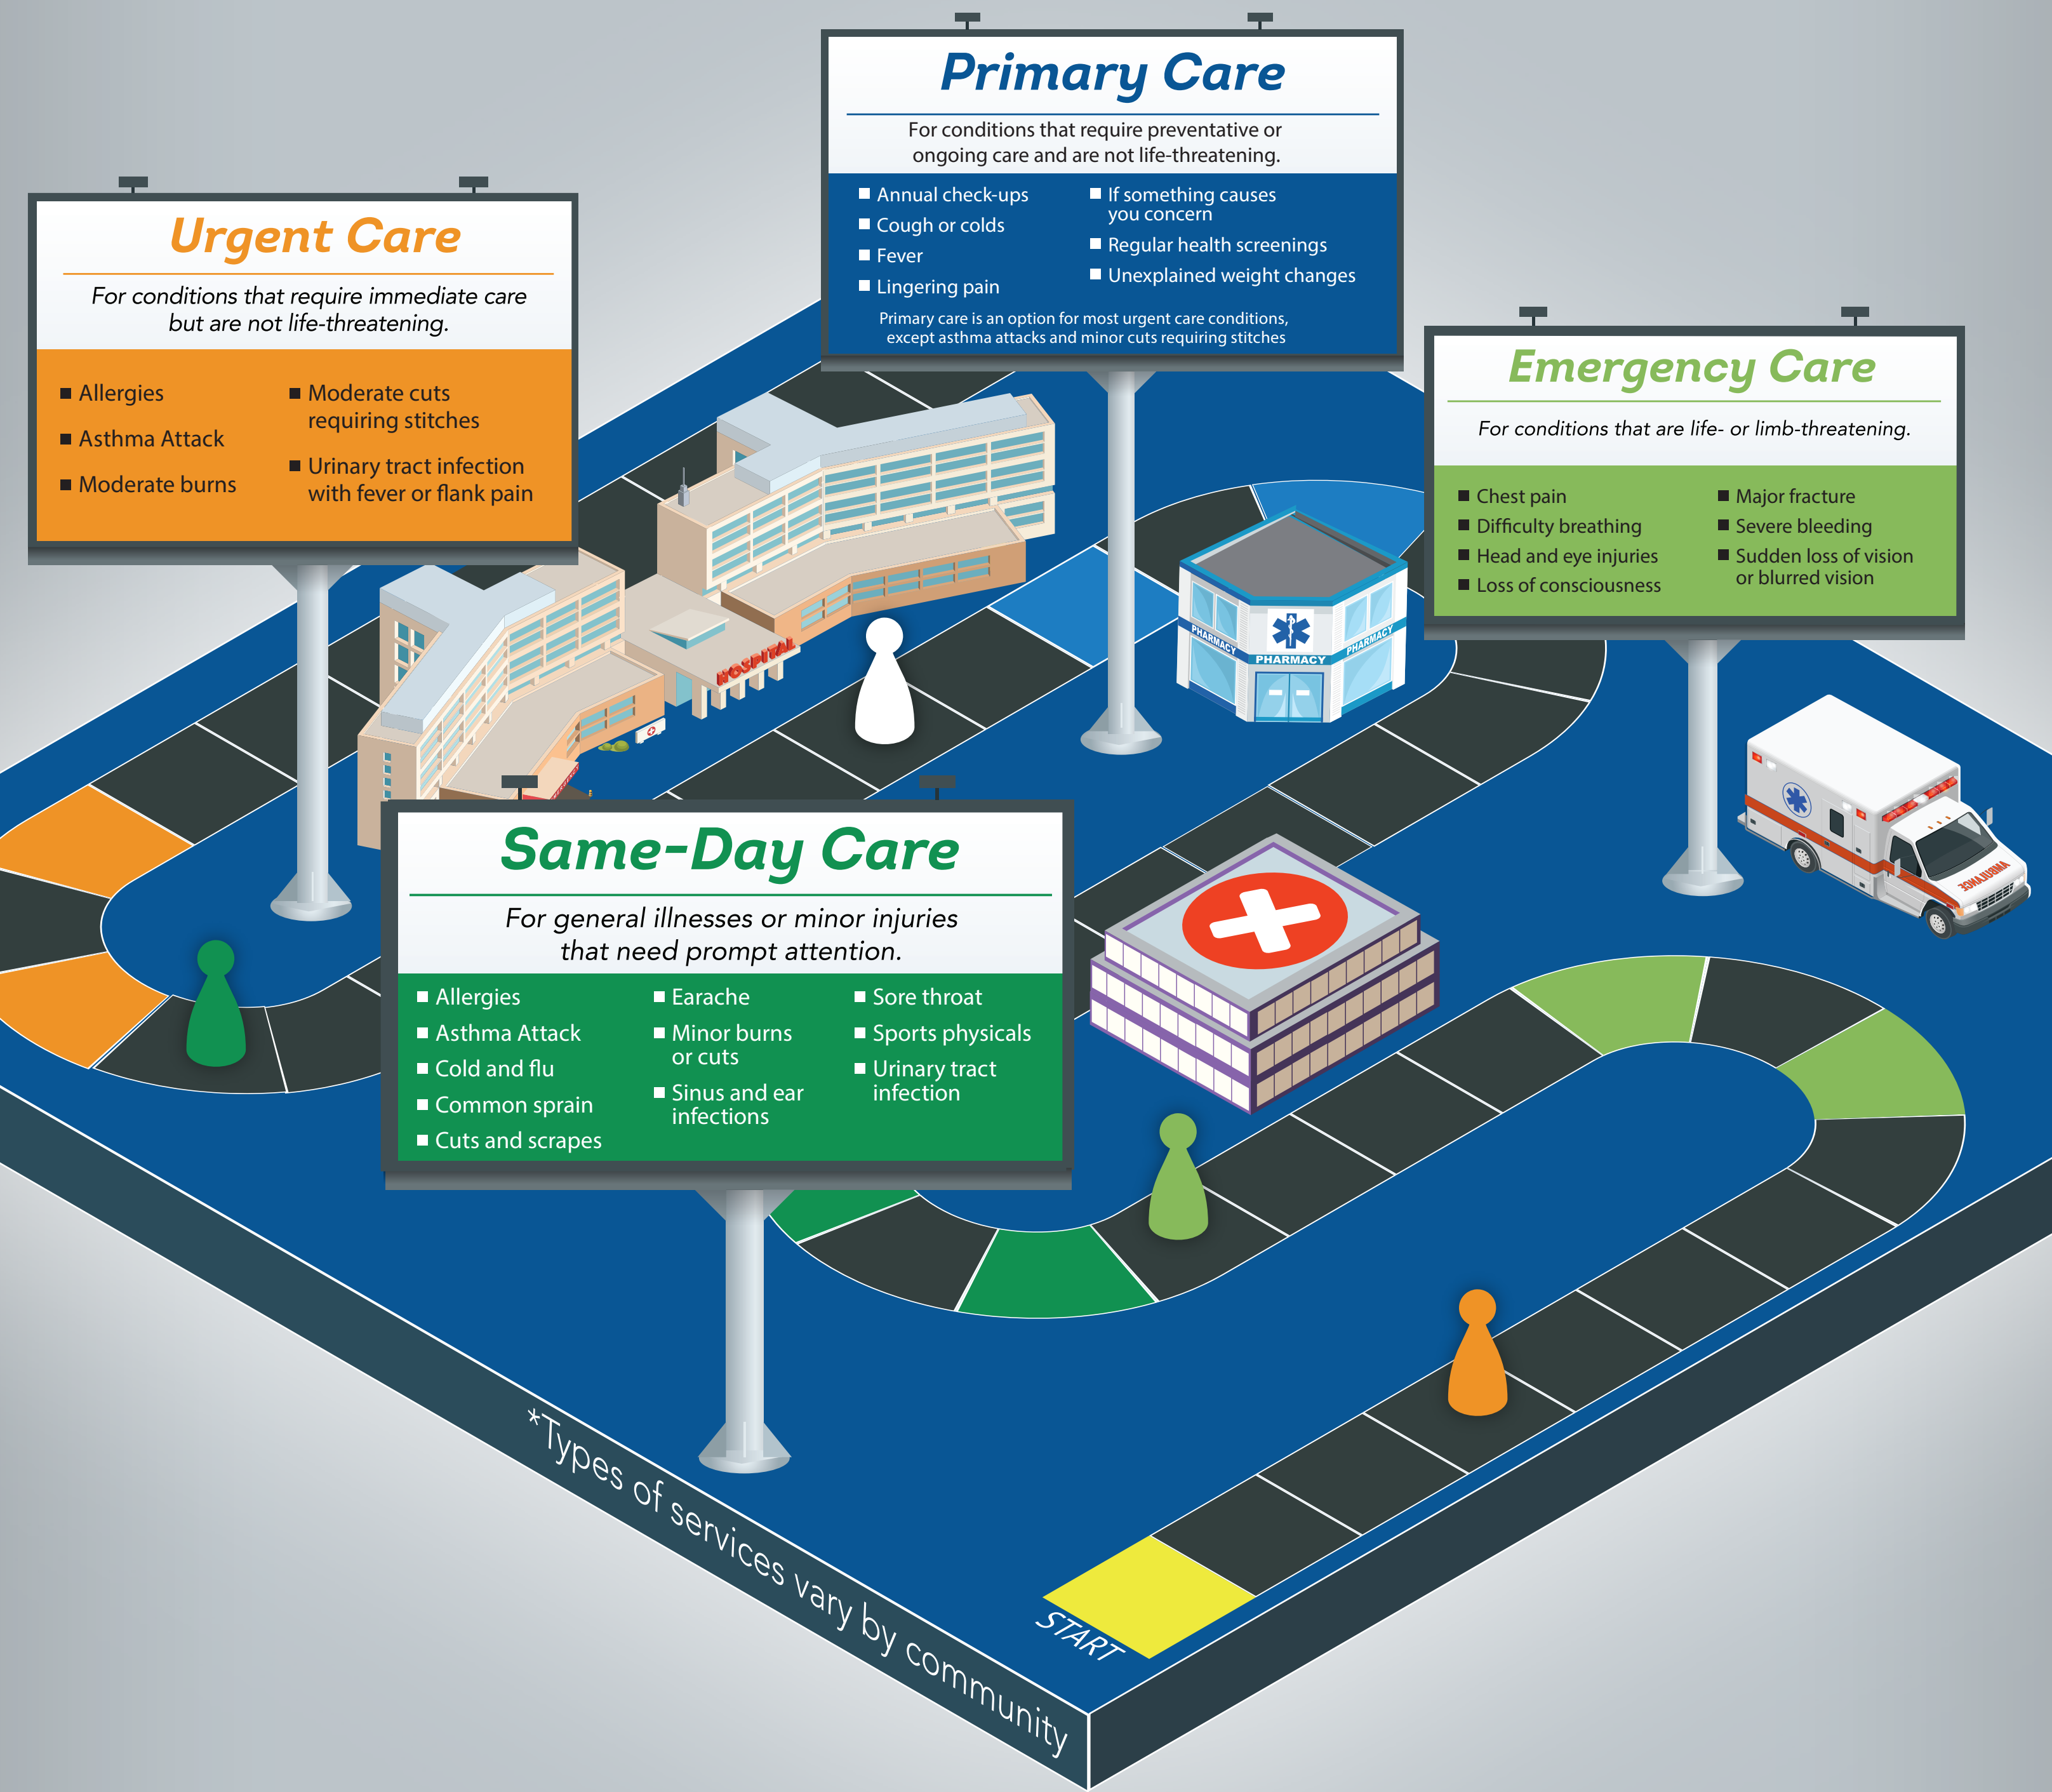

For conditions that are life- or limb-threatening.

- Chest pain
- Difficulty breathing
- Head and eye injuries
- Loss of consciousness
- Major fracture
- Severe bleeding
- Sudden loss of vision or blurred vision

Same-Day Care

For general illnesses or minor injuries that need prompt attention.

- Allergies
- Asthma Attack
- Cold and flu
- Common sprain
- Cuts and scrapes
- Earache
- Minor burns or cuts
- Sinus and ear infections
- Sore throat
- Sports physicals
- Urinary tract infection

Remember, if you have a medical emergency, go to your nearest emergency room or call 911.
